

NIKHIL MAALIGE

(201) 218-4479 • nikhil.maalige@email.com • LinkedIn

SUMMARY

Aspiring Computer Science student with experience in research, machine learning, and software development through academic projects and competitions. Demonstrates strong academic excellence and interest in solving real-world healthcare and technology challenges.

EDUCATION

Junior: Bergen County Academies, Rutherford, New Jersey 2025–2026
Cumulative GPA: 4.0/4.0 (All Honors, AP, or IB Courses)
Relevant coursework: AP Computer Science A (Score: 5), Advanced Math Analysis II, AP Computer Science A Data Structures, Chemistry, MERN Stack Web Applications, Sockets and Threading, Mechatronics, World History II, Francais III

Sophomore: Bergen County Academies, Rutherford, New Jersey 2024–2025
Cumulative GPA: 4.0/4.0 (All Honors or AP Courses)

Freshman: Bergen County Academies Rutherford, New Jersey 2023–2024
Cumulative GPA: 4.0/4.0 (All Honors Courses)

STANDARDIZED TEST SCORES

SAT (November 2025): Math Score 790/800 • Reading & Writing Score 720/800 • Total Score 1510/1600

TECHNICAL SKILLS

Programming Languages & Frameworks: Python, Java, MERN Stack (MongoDB, Express, React, Node.js), Web Development, Data Structures

Specialized Expertise: Machine Learning, Reinforcement Learning, Wearable Diagnostic Devices, Bioengineering Research, Game Development

Software & Tools: Photoshop, 3D Printing, CAD, Video Production, Web Technologies

Languages: English, Kannada, French

EXPERIENCE

State Farm Insurance Agency: Customer Service Agent Dec '25 – Present

- Answer inbound and outbound calls assisting clients with policy inquiries, account updates, and comprehensive support
- Guide clients through the claims process by collecting required information, clarifying coverage details, and ensuring proper documentation is submitted
- Process payments and coordinate with claims partners to monitor claim status, address issues, and provide timely updates to customers

NJIT Professor Research: Reinforcement Learning Jun '26 – Tentative

- Learned theoretical foundations of reinforcement learning algorithms and their applications
- Assisting with ongoing research project involving machine learning implementations and experimentation

ACADEMIC PROJECTS

Wearable Diagnostic Device for Parkinsonian Motor Symptom Assessment 2024

- Developed innovative wearable device designed to assess and monitor Parkinsonian motor symptoms with precision
- Awarded 2nd Place in BCA Research Expo and received United States Air Force Research Award in 2026
- Qualified for AJAS competition and planning to publish research findings in academic journal

FBLA Mobile Application Development 2025

- Built mobile application for FBLA competition focusing on practical business solutions
- Presented application to judges demonstrating improved communication and presentation skills

- Achieved 3rd Place at New Jersey State Leadership Conference and qualified for National Leadership Conference

LEADERSHIP & COMMUNITY SERVICE

BCA Machine Learning Club: Cofounder and Teacher 2024 – present

- Founded and developed school-wide machine learning club from concept to implementation
- Taught club members fundamental and advanced machine learning concepts and practical applications
- Organized bake sale fundraiser and planned school-wide machine learning competition for broader student engagement

Summer Band: Teacher and Volunteer 2023 – present

- Taught 15+ students across 5 hours per weekday in small-group settings with focus on technique, accuracy, and confidence
- Co-instructed 35+ students alongside band director during full-band rehearsals and ensemble preparation
- Assisted with rehearsal planning, music preparation, and daily organizational tasks

Senior Center: Volunteer 2023 – present

- Aided with meal service, cleanup, and event preparation for community programs serving senior residents
- Volunteered multiple days per week during summer and frequently throughout school year

SPORTS & EXTRACURRICULAR ACTIVITIES

Hackathons & Game Jams, 2nd Place: Counterspell Game Jam & HackMHS X (YEAR)

- Actively participated in competitive hackathons and game jams to develop problem-solving skills under time constraints.
- Learned the importance of teamwork and proper planning before execution. Planning to attend additional hackathons and competitions.

Marching Band 2023 – present

Active members, attend frequent practices, games, and competitions. Continuing participation through senior year.

Saxophone Ensemble: Advanced Musician 2024 – present

Performed on alto and tenor saxophones in ensemble focused on advanced classical and contemporary pieces. Performed at BCA concert and Ensemble Prestige showcase.

Concert Band: Musician 2023 – present

Consistent member of concert band ensemble throughout high school career.
